Dal 1955 nel mondo della ceramica

Mantenendo i valori dell'azienda di famiglia, dalla sua costituzione ad oggi, Sil Ceramiche è arrivata, a rappresentare un'importante realtà del Made in Italy, con uno sguardo alla continua evoluzione del mercato e delle sue esigenze, ma senza mai dimenticare né trascurare i principi su cui si fonda, che l'hanno vista nascere e crescere: onestà, serietà, trasparenza, impegno, spirito di sacrificio, senso di appartenenza.

Ogni nuovo investimento, quindi, è improntato al rispetto della tradizione, a cui si associa lo studio di soluzioni sempre più moderne, a beneficio del patrimonio fondamentale dell'azienda, la Clientela, di cui si ricercano costantemente apprezzamento e fiducia. Questo è l'obiettivo della nuova "Corporate Identity", per un'immagine che riflette una sostanza ricca di contenuti.

In the world of ceramics since 1955

Keeping the values of the family business, from its establishment to these days, Sil Ceramiche is now representing an important reality of Made in Italy, with a look to continuous evolution of the market and its needs, but never forgetting nor neglecting the principles it's based on, always present from its start and its rise: honesty, reliability, openness, commitment, spirit of duty and sacrifice, sense of belonging.

Each new investment is then based on the respect of tradition, always in connection with the study of more modern solutions, in favour of company's most important assets, that is to say Customers, with a constant seeking for their appreciation and trust.

This is the aim of new "Corporate Identity", for an image reflecting a substance rich in contents.

Du 1955 dans le monde de la céramique

En maintenant les valeurs de l'usine de famille, de sa constitution à aujourd'hui, Sil Ceramiche est arrivante à représenter une importante réalité du Made in Italy, avec un regard à l'évolution continue du marché et de ses exigences, mais sans jamais oublier ni négliger les débuts sur lesquels il se fonde, qu'elles l'ont vue naître et grandir : honnêteté, sérieux, transparence, engagement, esprit d'acrificio, sens d'appartenance.

Chaque nouvel investissement, donc, est imprégné au respect de la tradition au cuim il s'associe l'étude de solutions modernes de plus en plus, au bénéfice du patrimoine fondamental de l'usine, la clientèle, dont ils recherchent appréciation et confiance constamment. Celui-ci est l'objectif du nouveau "Corporate Identity", pour une image qu'il réfléchisse une substance riche de contenus.

City Life

Il gusto dell'urban living.

Materiale antico ma straordinariamente moderno ed attuale. Lisciato, spatalato, spazzolato, levigato ma cemento. Ecco dove nasce la nostra ispirazione, proposta con formati importanti sia da calpestare che da accarezzare, semplicemente morbido cemento che si inserisce in uno stile sobrio e minimale.

City Life

The taste for urban living. An ancient material but exceptionally modern and topical. Polished, spattled, brushed, lapped... but still cement. Here's where our inspiration sprang up, proposed with important sizes, both to be treaded and to be caressed, but modern and trendy, furnishing by itself or becoming part of a minimal and sober style.

City Life

Le gout de l'urban living. Donc matériel ancien mais extraordinairement moderne et actuel. Lissé, spatulé, brossé, poli...mais Ciment. C'est là la naissance de notre inspiration, proposée dans des formats importants soit à piétiner soit à caresser, mais moderne et de tendance, qui s'habille seul ou qui s'insère dans un style sobre et minimale.

Bricks

Il design reinterpreta la tradizione. Il restyling metropolitano dei tipici spazi industriali italo-newyorkesi viene reinterpretato dalle sette nuance di bricks. I due formati rettangolari 7.5X15 e 7.5X30 richiamano il fascino dei muretti dei loft. Le due superfici matt e glossy dosano un sapore tutto urban, tra cadenze vintage e moderne. Bricks è il rivestimento ideale di bagni, cucine, living, camini, negozi, bar, ristoranti, che riesce a coniugare il gusto della "ready made" e del design contemporaneo.

Bricks

Design reinterprets the tradition. The metropolitan restyling of typical italian-new yorker industrial spaces is reinterpreted by the seven shades of bricks. Both 7.5X15 and 7.5X30 rectangular formats evoke the charm of the loft brick walls. Both surfaces, mat and glossy, dose a very urban flavour, between vintage and modern cadences. Bricks is the ideal covering surface for kitchens, bathrooms, living rooms, fireplaces, shops, cafes, restaurants, which combines the taste of the "readymade" and of contemporary design.

Snow - Coal

Il contrasto bianco e nero accompagna forme geometricamente pulite e rigorose che suggeriscono un desiderio di semplicità ed eleganza. In un mondo di rumori, colori ed eccessiva quantità di informazioni si riscopre la bellezza dell'accostamento di due colori indispensabili, una combinazione tanto semplice quanto straordinariamente raffinata. Il bianco riflette ogni tipo di luce, artificiale o naturale, e si abbina perfettamente agli effetti grafici del nero. Ne risulta un effetto minimal che, allontanandosi dalle atmosfere sfarzose, si apre all'esigenza di un'eleganza assoluta e duratura, in grado di non stancare mai.

Snow - Coal

The contrast of black & white goes with geometrical shapes clean and rigorous, that suggest a desire of simplicity and elegance. In a world full of noises , colors and an excessive quantity of informations, we rediscover the beauty of the mix of two essential colors, a combination so simple but at the same time so extraordinarily refined. The white reflects every kind of light, artificial or natural, and it perfectly matches with the graphic effects of the black. The result is a design which is minimal and, getting further from the sumptuous atmospheres, satisfies the need of an absolute and everlasting elegance that you will never be tired of.

Snow - Coal

Le contraste noir et blanc accompagne des formes géométriques propres et rigoureuses, qui suggèrent une envie de simplicité et élégance. Dans un monde de brouilles, couleurs et excessive quantité d'informations on redécouvre la beauté de l'accouplement de deux couleurs indispensables, une combinaison au même temps simple et extraordinairement raffinée. Le blanc reflet toute sorte de lumière, artificielle ou naturelle, et il se marie parfaitement aux effets graphiques du noir. Il en résulte un effet minimal qui s'éloigne des atmosphères pompeuses et s'ouvre à l'exigence d'une élégance absolue et durable, qui ne passe jamais.
