TECHNICAL INFORMATION · INFORMAZIONI TECNICHE

Tabletop Display	48
Suggested laying patterns	50

The brick tiles in our ceramic collections are created through dedicated manufacturing processes that enhance their authentic, tactile character and give each piece a distinctive identity.

I brick delle nostre collezioni ceramiche nascono da lavorazioni dedicate che ne esaltano l'autenticità materica e conferiscono a ogni elemento un'identità distintiva.

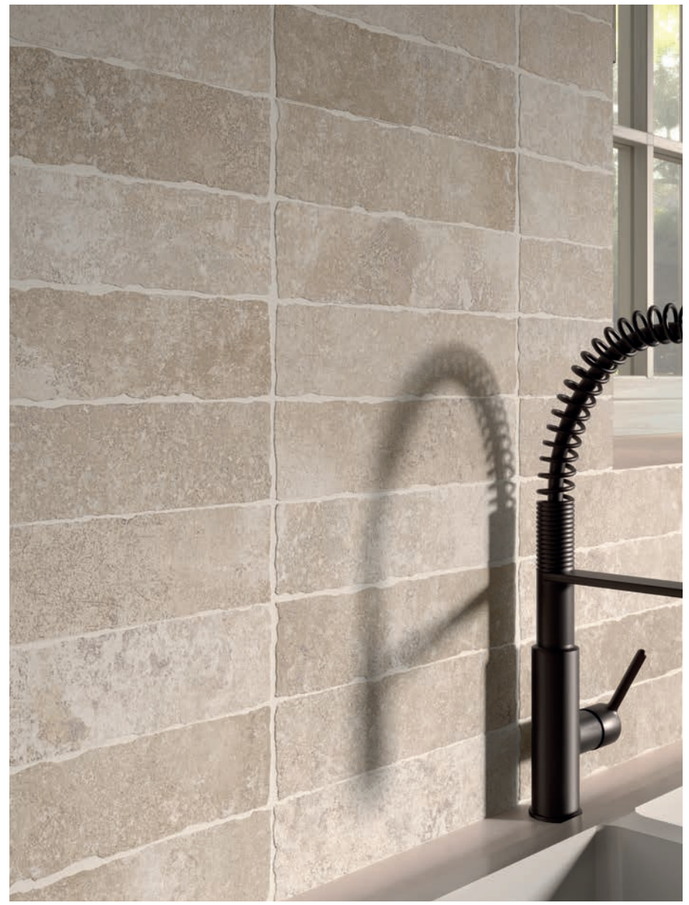

The Pisé 7.5x30 Split is crafted through a partial cut followed by controlled splitting, creating naturally irregular edges with a linear profile that enhance its authentic character.

La Pisé 7,5x30 Split nasce da un taglio parziale e una spaccatura controllata, che donano ai bordi un'irregolarità naturale dal profilo lineare, esaltandone l'autenticità.

The Tumbled 7.5x30 undergoes a tumbling process that softens the edges and recreates the effect of natural wear, giving the brick a soft aesthetic and timeless appeal.

Il Tumbled 7,5x30 viene sottoposto a un processo di burattatura che arrotonda gli spigoli e ricrea l'effetto dell'usura naturale, donando al brick un'estetica morbida e dal fascino senza tempo

Available in the Cluny, Nimes, Pierre de Montignac, Provence and Hampton collections.
Disponibile nelle collezioni Cluny, Nimes, Pierre de Montignac, Provence e Hampton

The difference between Split and Tumbled lies in their edge finishes: irregular and sharply defined for a more textured, contemporary look in Split; softened and rounded for a warmer, timeworn aesthetic in Tumbled.

La differenza tra Split e Tumbled risiede nella lavorazione dei bordi: irregolari e dal profilo definito per un'estetica più materica e contemporanea nello Split; ammorbiditi e arrotondati per un effetto più caldo e vissuto nel Tumbled.

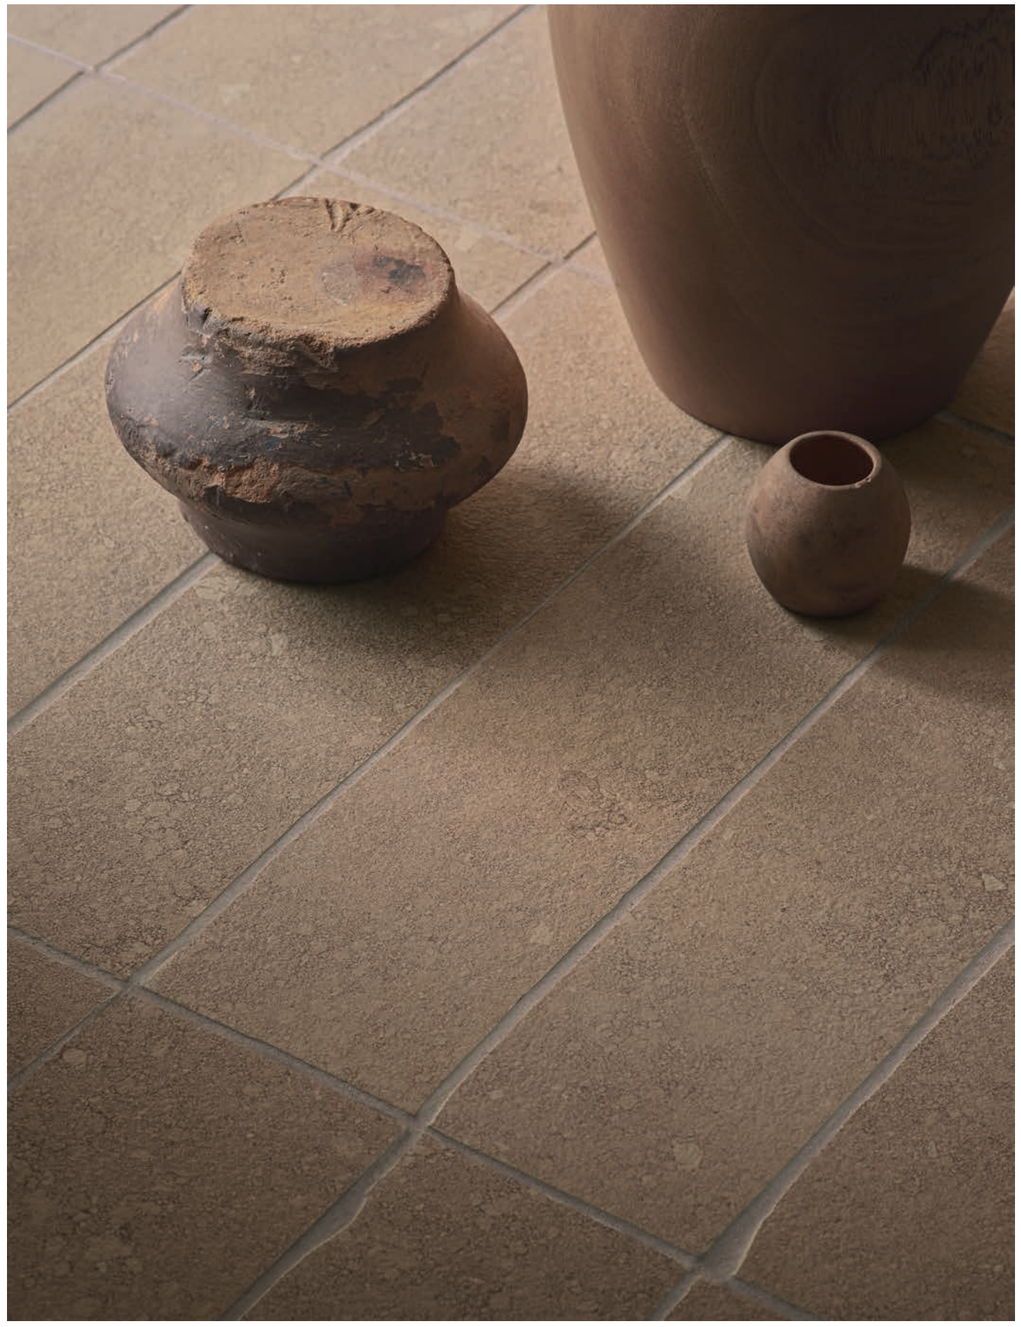

PISÉ

PISÉ: THE SOUL OF THE EARTH, THE HUMAN TOUCH.

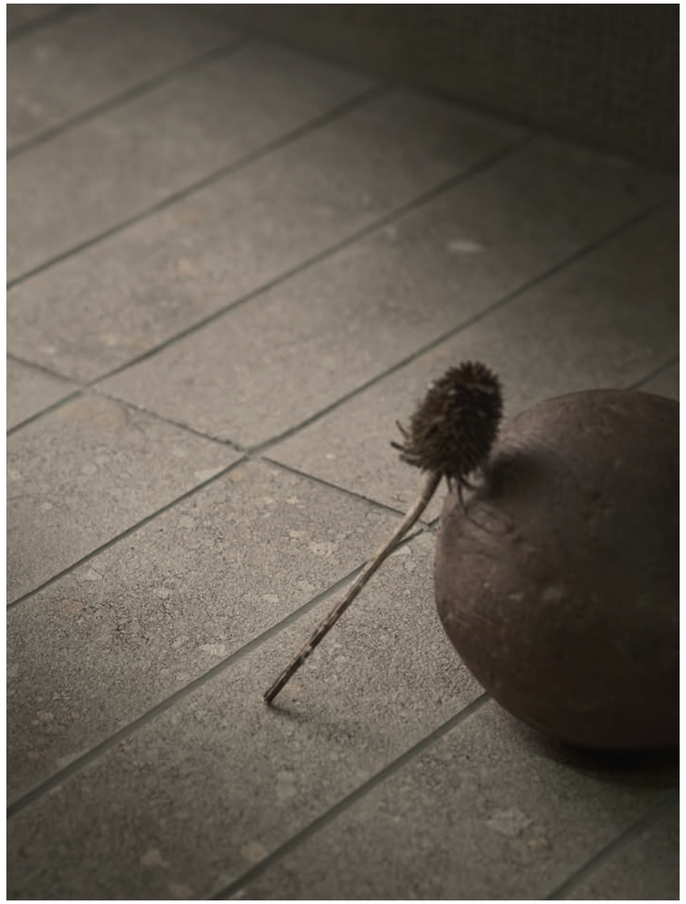

PISÉ: l’anima della terra, il tocco dell’uomo.

Floor_Pisé Brique Art 7,5x30 Split

Subtle irregularities in the edges give each piece the character of a handcrafted surface, as if shaped by hand.

Le leggere irregolarità dei bordi conferiscono a ogni elemento il carattere di una superficie artigianale, come se fosse lavorata a mano.

Wall_Pisé Argile Art & Trame 7,5x30 Split

Here, the material is never perfect, and it is precisely in this imperfection that its authenticity resides.

Qui la materia non è mai perfetta,
ed è proprio in questa imperfezione
che risiede la sua autenticità.
